

GENERAL INDEX TO VOLUME XVI.

[NOTE.—Names of authors and debaters are printed in SMALL CAPS; titles of papers are printed in *italic type*.]

	PAGE
ADAMS, W. H., tests on heat changes in cylinder walls	446
ALDRICH, W. S., disc., boiler and engine plants	600
ALLISON, ROBERT, <i>the old and the new</i> , 742; disc., a new shaft governor..	733
Annealings of forgings	235
<i>Analysis of the Tremont turbine</i> , De Volson Wood	707
ANGUS, ROBT., disc., new form friction brakes	823
<i>Application of brakes to the truck wheels of a locomotive</i> , Gaetano Lanza. . .	69
ARMSTRONG, E. J., a new shaft governor	729
Asphalt for iron and steel coating	679
Axles, strength of	237
 BALL, F. H., disc., trials of a recent compound engine	184
BARNES, D. L., <i>rail pressure of locomotive driving wheels</i> , 249; disc., counterbalance in locomotive drive-wheels, 338; distribution of moisture in steam, 1034; efficiency of boilers, 999; Keep's cooling curves, 1134; piece-rate system, 891; thickness gauges for metals, 643; transverse strength of cast iron	1112
BARR, J. H., <i>experiments on a system of governing by compression</i> , 430; disc., counterbalance in locomotive drive-wheels	330
BARRUS, G. H., disc., efficiency of boilers	969
BEMENT, C. E., disc., a piece-rate system	894
Berthelot calorimeters	1050
BINSSE, H., disc., piston valves, 161; milling machine and planer	1168
BISSELL, G. W., disc., filtering oil	1176
BOYER, F. H., disc., coatings for iron and steel	416
BRASHEAR, JNO. A., disc., a new shaft governor	736
Brakes on locomotive trucks	69
BRILL, G. M., <i>pipe-covering tests</i> , 827; disc., tests on engine at Sibley College	959
BRYAN, W. H., <i>the down-draft furnace for steam boilers</i> , 773; disc., efficiency of boilers, 987; combined electric light and railway station....	1159
BULL, STORM, disc., combined electric light and railway station	1159
 Calorimeters, tests of	448, 1040
<i>Cam for actuating valves of high-speed steam engines</i>	117
Car axles, strength of	237
Carbon paints	696
CARPENTER, R. C., <i>the effect of length of specimen on the percentage of extension</i> , 904; <i>force required and work performed in driving and pulling cut and wire nails</i> , 1002; <i>new coal calorimeter</i> , 1040; <i>tests made on the experimental engine of Sibley College</i> , 915; disc., throttling calorimeters, 467; efficiency of boilers, 989; distribution of steam, 1029; transverse	

Friction Brakes

806

	PAGE
strength of cast iron, 1110; Hawley down-draft furnace, 798; combined electric light and railway station, 1159; pipe-covering tests.	853
CARTWRIGHT, ROBERT, disc., coatings for iron and steel, 416; tests of cast iron	576
Cast iron, tests of	542, 1066, 1082
" shrinkage of	1117
<i>Changing the suction system of a pumping engine</i> , F. W. Dean	40
CHASE, W. L., disc., forms of filing cabinets	613
CHILDS, ARTHUR E., disc., electric tramways	527
Chimney, straightening of	75
CLARK, WALTON, disc., forms of filing cabinets	621
Coal calorimeter	1040
Committee on fireproofing tests	639
" " standard methods of tests	640
" " standard thickness gauge for metals	641
COPELAND, CHARLES W., memorial notice of	1191
<i>Comparison of automatic cut-off and throttling regulation on compound and triple-expansion engines</i> , Chas. T. Porter	111
Compound engine, test of	179
" engines, proportions	762
Compression as method of governing	430
Corrosion of iron	663
Counterbalance, effect of	286-305
COXE, ECKLEY B., in memoriam	1182
CRUIKSHANK, BARTON, disc., forms of filing cabinets	617
DAVIS, E. F. C., disc., efficiency of boilers, 1001; coatings for iron and steel, 422; electric tramways, 526; new forms of friction brakes, 825; throttling calorimeters, 475; planer and milling machine, 1172; in memoriam	1177
DEAN, F. W., <i>changing the suction system of a pumping engine</i> , 40; <i>trials of Leavitt pumping engine at Louisville</i> , 169; <i>trials of a recent compound engine with a cylinder ratio of 7 to 1</i> , 179; <i>efficiency of boilers, a criticism on the Society's code of reporting boiler trials</i> , 962; disc., cams for steam-engine valve-gear, 163; counterbalance in locomotive drive-wheels.	321
DENTON, JAS. E., disc., efficiency of boilers	984
<i>Description of a cam for actuating the valves of high-speed steam engines</i> , C. T. Porter	117
<i>Description of an improved centrifugal governor and valve</i> , C. T. Porter.	184
<i>Description of improved forms of steam separator, steam jacket, and reheater</i> , Chas. T. Porter	137
<i>Description of new form of sterilizer</i> , A. M. Goodale	659
Disinfecting plant	655
<i>Drawing-office appliances</i> , A. W. Robinson	106
Driving wheels, effect of on rails	249
DOW, ALEXANDER, disc., Hawley down-draft furnace	795
<i>Down-draft furnace for steam boilers</i> , W. H. Bryan	773
DU BOIS, A. J., disc., moment of inertia	497
DURFEE, W. F., disc., coatings for iron and steel, 418; illuminating gas, 629; strength of car axles, 243; tests of cast iron	576
Dynamometers, new forms of	806

	PAGE
<i>Efficiency of boilers, a criticism of the Society's code of reporting boiler trials,</i>	
F. W. Dean.....	963
<i>Effect of length of specimen on the percentage of extension, R. C. Carpenter..</i>	904
Electric railway tests.....	1142
" device for indicators.....	960
" tramways.....	504
EMERY, CHAS. E., disc., boiler and engine plants, 605; trials of a recent compound engine, 198; the use of the decimal thickness gauge, 34; vertical triple-expansion pumping engine.....	55
ESTRADA, E. D., disc., tests of cast iron, 568; strength of car axles.....	242
<i>Expansion bearings for bridge superstructures, second paper, George S. Morison.....</i>	724
<i>Experiments on a system of governing by compression, J. H. Barr.....</i>	430
<i>Experimental study of the effect of the counterbalance in locomotive drive-wheels upon the pressure between wheel and rail, W. F. M. Goss.....</i>	305
FAWCETT, EZRA, disc., the old and the new, 752; a new shaft governor....	737
FIELD, C. J., <i>present and prospective development of electric tramways.....</i>	504
Filing cabinets for clippings.....	610
Fire-proofing tests.....	639
Fly-wheels, strains in.....	208
<i>Force required and work performed in driving and pulling cut and wire nails, R. C. Carpenter.....</i>	1002
Forgings, notes on steel.....	228
FORNEY, M. N., disc., cams for steam engine valve gear, 163; counterbalance in locomotive drive-wheels, 317; monthly meetings of Society.	27
Forgings of steel.....	228
FORSYTH, WILLIAM, disc., counterbalance in locomotive drive-wheels....	326
FRANCIS, W. H., <i>a portable disinfecting plant.....</i>	655
FRENCH, EDWARD CLEMENT, memorial notice of.....	1197
FRITZ, JOHN, disc., tests of cast iron.....	576
FRY, A. B., disc., boiler and engine plants.....	608
GABRIEL, W. A., <i>a T-square and its mountings.....</i>	651
Galvanizing of iron.....	357
GANTT, H. L., disc., monthly meetings of Society, 30; a piece-rate system.	883
Gas from carbide of calcium.....	625
GILLIS, H. A., disc., illuminating gas.....	630
GOBEILLE, J. L., disc., a piece-rate system.....	897
GOODALE, A. M., <i>description of a new form of sterilizer.....</i>	659
GOSS, W. F. M., <i>an experimental study of the effect of the counterbalance in locomotive drive-wheels upon the pressure between wheel and rail, 305; new forms of friction brakes, 806; disc., combined electric light and railway station, 1158; distribution of moisture in steam.....</i>	1033
Governor, a new shaft.....	729
" an improved centrifugal.....	134
<i>Graphical method of designing springs, Geo. R. Henderson.....</i>	92
HALE, R. S., disc., electric tramways, 522; trials of a recent compound engine.....	202
HALSEY, F. A., disc., a piece-rate system, 884; forms of filing cabinets...	621

	PAGE
HART, C. E., disc., monthly meetings of Society.....	31
HAWKINS, J. T., disc., coatings for iron and steel, 423 ; tests of cast iron..	581
<i>Hawley furnace</i>	773
Heat, effect of, on tensile strength of iron.....	739
HEILMAN, OREN GIBSON, memorial notice of.....	1187
HENDERSON, G. R., <i>a graphical method of designing springs</i> , 92 ; disc., counterbalance in locomotive drive-wheels, 333 ; drawing-office appliances, 109 ; strength of car axles.....	241
HENNING, G. C., disc., a piece-rate system, 893 ; coatings for iron and steel, 416 ; driving cut and wire nails, 1015 ; effect of length of specimen on percentage of extension, 911 ; efficiency of boilers, 1000 ; electric tramways, 517 ; expansion bearings, 727 ; iron affected by tensile stress, 741 ; Keep's cooling curves, 1137 ; moment of inertia, 498 ; new coal calorimeter, 1053 ; new forms friction brakes, 824 ; pipe-covering tests, 854 ; presents report on tests and testing materials, 640, 1066 ; strength of car axles, 244 ; tests of cast iron, 575 ; thickness gauge for metals, 643 ; transverse strength of cast iron.....	1111
HIBBARD, H. WADE, disc., strength of car axles.....	247
HILL, GEORGE, disc., amendments to rules of Society.....	23
HOLLOWAY, J. F., disc., monthly meetings of the Society, 29 ; relative tests of cast iron, 579 ; old and new, 755 ; piece-rate system, 897 ; efficiency of boilers.....	1000
HOLMAN, M. L., disc., Hawley down-draft furnace, 801 ; invites Society to St. Louis.....	644
<i>Horse-power planimeter</i> , E. J. Willis ..	1161
HOYT, CARROLL LIVINGSTON, memorial notice of.....	1191
HUNT, R. W., disc., efficiency of boilers.....	993
HUNTING, A. A., disc., efficiency of boilers.....	1001
HUTTON, F. R., disc., amendments to rules of Society, 19 ; moment of inertia, 493 ; proportioning cylinders of compound engines, 770 ; the old and the new, 754 ; thickness gauge for metals.....	643
Indicators, electric device for.....	960
Inertia, moment of.....	477
<i>Improved centrifugal governor and valve</i> , C. T. Porter.....	134
“ <i>forms of steam separator, steam jacket, and reheater</i> , C. T. Porter.	137
Illuminating gas from CaC..	625
JACOBUS, D. S., <i>results of measurements to test the accuracy of small throttling calorimeters</i> , 448 ; <i>tests to show the distribution of moisture in steam when flowing through a horizontal pipe</i> , 1017 ; disc., efficiency of boilers, 936 ; governing by compression, 445 ; horse-power planimeter, 1166 ; new coal calorimeter, 1061 ; new forms of friction brakes, 819 ; pulleys and fly-wheels, 226 ; tests on the triple engine, 90 ; throttling calorimeters.....	463
JACKSON, D. C., <i>tests of a combined electric light and electric railway central station</i>	1142
JAQUES, W. H., disc., forms of filing cabinets.....	617
JOHNSON, J. B., disc., moment of inertia, 495 ; transverse strength of cast iron, 1107 ; Keep's cooling curves.....	1132

	PAGE
JOHNSON, CHAS. R., memorial notice of	1188
JONES, WASHINGTON, disc., the old and the new	757
JONES, WILLIS C., memorial notice of	1198
<i>Keep's cooling curves—a study of molecular changes due to varying temperatures</i> , W. J. Keep	1117
KEEF, W. J., <i>relative tests of cast iron</i> , 542; <i>transverse strength of cast iron</i> , 1082; <i>Keep's cooling curves</i> , 1117; disc., combined electric light and railway station, 1159; tests of cast iron	587
KENT, WM., disc., coatings for iron and steel, 420; combined electric light and railway station, 1156; counterbalance in locomotive drive-wheels, 331; distribution of moisture in steam, 1032; efficiency of boilers, 1000; graphical method of designing springs, 103; Hawley down-draft furnace, 797; illuminating gas, 628; <i>Keep's cooling curves</i> , 1135; milling machine and planer, 1171; new coal calorimeter, 1064; new forms friction brakes, 823; piece-rate system, 890; pipe-covering tests, 851; proportioning cylinders of compound engines, 768; pulleys and fly-wheels, 224; steel forgings, 235; tests of cast iron, 580; tests on engine at Sibley College, 958; thickness gauge for metals, 642; trials of a recent compound engine, 201; throttling calorimeters	462
KERR, C. V., <i>theory of the moment of inertia</i> , 477; disc., efficiency of boilers	982
KNAPP, E. C., <i>method of proportioning cylinders for compound engines</i>	762
LAIRD, J. A., disc., Hawley down-draft furnace	800
LANZA, GAETANO, AND MILLER, E. F., <i>some tests of the strength of spruce columns</i>	56
LANZA, GAETANO, <i>application of brakes to the truck wheels of a locomotive</i> , 69; <i>stresses in the rims and rim joints of pulleys and fly-wheels</i> , 208; disc., counterbalance in locomotive drive-wheels, 322; moment of inertia	495
Lead paints	693
Leavitt dynamometers	821
<i>Leavitt pumping engine at Louisville, Ky.</i> , F. W. Dean	169
LIPE, CHARLES E., memorial notice of	1195
Locomotive pistons	256
MAGRUDER, WM. T., disc., forms of filing cabinets	615
Mahler calorimeter	1052
McELROY, SAMUEL, disc., coatings for iron and steel	421
McGEORGE, JOHN, disc., counterbalance in locomotive drive-wheels	323
MEIER, E. D., disc., efficiency of boilers, 979; distribution of moisture in steam, 1029; Hawley down-draft furnace, 799; invites Society to St. Louis, 644; thickness gauge for metals	642
<i>Memorial notices of members deceased during the year</i>	1187
<i>Method of proportioning cylinders for compound engines</i> , E. C. Knapp	762
MILLER, E. F., <i>some tests of the strength of spruce columns</i> , 56; <i>tests of the triple engine at Massachusetts Institute of Technology</i>	82
MILLER, FRED. J., disc., planer and milling machine	1173
MILLER, SPENCER, disc., forms of filing cabinets	610
Moment of inertia, theory of	477

	PAGE
Monthly meetings of Society	27
MORISON, GEO. S., <i>expansion bearings for bridge superstructures</i> , second paper, 724; disc., counterbalance in locomotive drive-wheels.....	318
MUMFORD, E. H., disc., tests of cast iron.....	574
 NAGLE, A. F., disc., efficiency of boilers, 977; Hawley down-draft furnace, 796; pipe-covering tests, 843; the old and the new, 753; Tremont trubine.....	 719
NEWCOMB, C. L., disc., monthly meetings of Society	30
<i>New coal calorimeter</i> , R. C. Carpenter.....	1040
Non-conducting coverings, tests of.....	827
<i>New forms of friction brakes</i> , W. F. M. Goss.....	806
<i>New shaft governor</i> , E. J. Armstrong.....	729
<i>Notes on steel forgings</i> , G. M. Sinclair.....	228
NORTON, CHAS. H., disc., a piece-rate system, 900; thickness gauge for metals, 642; planer and milling machine....	1173
 Oil-tempering of forgings.....	283
<i>Old and the new</i> , Robert Allison.....	742
 PACKARD, LOREN, memorial notice of.	1192
Paint tests.....	390
PARSONS, H. DE B., disc., counterbalance in locomotive drive-wheels, 328; strength of car axles, 244; efficiency of boilers.....	973
PARTRIDGE, W. E., disc., electric tramways.....	520
PEABODY, C. H., AND MILLER, E. F., <i>tests on the triple engine at the Massachusetts Institute of Technology</i>	82
PENTON, J. A., disc., a piece-rate system	888
PERRY, NELSON W., disc., electric tramways.....	522
<i>Piece-rate system, being a step towards a partial solution of the labor problem</i> , F. W. Taylor	856
PICKERING, THOMAS RICHARD, memorial notice of.....	1193
Pigments, action of	663
<i>Pipe-covering tests</i> , G. M. Brill.....	827
PLATT, JOS. C., <i>straightening a leaning chimney 100 feet high</i> , 75; disc., amendments to rules of Society, 20; electric tramways, 529; Keep's cooling curves, 1133; trials of a recent compound engine, 202; a piece-rate system, 896; efficiency of boilers.....	995
PLATT, JNO., disc., coatings for iron and steel, 419; electric tramways, 529; tests of cast iron.....	577
POMEROY, L. R., disc., strength of car axles.....	243
<i>Portable disinfecting plant</i> , W. H. Francis.....	655
PORTER, CHAS. T., <i>description of a cam for actuating the valves of high-speed steam engines</i> , 117; <i>description of an improved centrifugal governor and valve</i> , 134; <i>description of an improved form of steam separator, steam jacket, and reheater</i> , 137; <i>comparison of the action of a fixed cut-off and throttling regulation with that of the automatic variable cut-off on compound and triple-expansion engines</i> , 111; disc., counterbalance in locomotive drive-wheels	322
POTTER, W. B., disc., efficiency of boilers.....	996

	PAGE
Proceedings Detroit meeting (XXXIst.)	635
“ of New York meeting	8
<i>Present and prospective development of electric tramways</i> , C. J. Field.....	504
Pumping engine, test of.....	49, 169
Pump-suction under pressure.....	40
 RADFORD, BENJAMIN F., memorial notice of.....	1189
<i>Rail pressures of locomotive driving wheels</i> , D. L. Barnes.....	249
RANDOLPH, L. S., <i>strength of railway car axles</i> , 237; disc., a graphical method of designing springs.	103
REARICK, C. B., disc., combined electric light and railway station, 1157; pipe-covering tests.....	852
<i>Relative tests of cast iron</i> , W. J. Keep.....	542
<i>Report of committee on standard thickness gauges for sheet and wire</i> , New York, 1894.....	32, 641
<i>Report of committee on tests and testing materials</i> , New York, 1894.....	25, 1066
<i>Results of measurements to test the accuracy of small throttling calorimeters</i> , D. S. Jacobus.....	448
RICHARDS, C. B., disc., new Porter steam engine.....	152
RICHARDS, FRANCIS H., monthly meetings of Society.....	80
RICHTER, A. W., <i>tests of combined electric light and railway station</i> ...1142,	1160
ROBINSON, A. W., <i>drawing office appliances</i>	106
ROCKWOOD, GEO. I., disc., trials of a recent compound engine, 189; com- bined electric light and railway station, 1158; new Porter steam engine, 156; electric tramways, 533; the old and the new, 753; proportioning cylinders of compound engines, 767; Hawley down-draft furnace, 862; new forms friction brakes, 819; tests on engine at Sibley College, 959; efficiency of boilers.....	992
ROELKER, H. B., disc., coatings for iron and steel	418
ROGERS, W. S., disc., a piece-rate system, 889; milling machinery, 1172; pipe-covering tests, 854; Keep's cooling curves.....	1185
ROYSE, DANIEL, disc., distribution of moisture in steam.....	1034
<i>Rustless coatings for iron and steel—galvanizing, electric-chemical treatment</i> , <i>painting, and other preservative methods</i> , M. P. Wood, second paper, 350; ditto, third paper.....	663
 SCHEFFLER, F. A., disc., efficiency of boilers, 978; electric tramways	525
SCHEFFLER, T. F., disc., boiler and engine plants.....	590
SCOTT, OLIN, disc., the old and the new.....	749
Separator, form of.....	137
Shaft governor, a new.....	727
SHAW, ALTON J., memorial notice of.....	1190
SIMONDS, G. F., memorial notice of.....	1189
SINCLAIR, G. M., <i>notes on steel forgings</i>	228
SMITH, J. M., disc., combined electric light and railway station, 1157; pro- portioning cylinders of compound engines.....	769
SMITH, OBERLIN, disc., amendments to rules of Society, 25; boiler and en- gine plants, 605; counterbalance in locomotive drive-wheels, 319 and 324; electric tramways, 520; forms of filing cabinets, 619; improved form steam separator, 159; the use of the decimal thickness gauge....	34

	PAGE
SORGE, A., disc., transverse strength of cast iron.....	1113
Springs, designing of.....	92
Spruce columns, tests of.....	56
STANWOOD, J. B., disc., proportioning cylinders.....	767
Steam jacket, form of.....	137
STEARNS, ALBERT, disc., pipe-covering tests, 853; combined electric light and railway station.....	1157
Steel forgings.....	228
STETSON, G. H., disc., combined electric light and railway station.....	1157
<i>Straightening a leaning chimney 100 feet high</i> , Jos. C. Platt.....	75
<i>Strength of railway car axles</i> , L. S. Randolph.....	237
<i>Strength of iron as affected by tensile stress while hot</i> , De Volson Wood.....	739
<i>Stresses in the rims and rim joints of pulleys and fly-wheels</i> , Gaetano Lanza.....	208
STRONG, GEO. S., disc., counterbalance in locomotive drive-wheels.....	319
Sterilizer, new form of.....	659
Sublimed lead for iron and steel coating.....	689
Subway conduits.....	517
SUPLEE, H. H., disc., boiler and engine plants.....	603
SWEET, JNO. E., disc., driving and pulling nails, 1015; a new shaft governor.....	735
<i>T-square and its mountings</i> , W. A. Gabriel.....	651
TAYLOR, F. W., a piece-rate system, being a step towards a partial solution of the labor problem, 856; disc., Hawley down-draft furnace, 799; pipe-covering tests.....	844
Telephone systems for manufactories.....	623
<i>Tests made on the experimental engine of Sibley College, Cornell University</i> , R. C. Carpenter.....	913
<i>Tests of a combined electric light and electric railway central station</i> , D. C. Jackson.....	1142
<i>Tests of the strength of spruce columns</i> , Gaetano Lanza and E. P. Miller.....	56
<i>Tests to show the distribution of moisture in steam when flowing through a horizontal pipe</i> , D. S. Jacobus.....	1017
<i>Tests on the triple engine at the Massachusetts Institute of Technology</i> , C. H. Peabody and E. F. Miller.....	82
Tests and testing materials.....	1066
Tramways, electric.....	504
<i>Transverse strength of cast iron</i> , W. J. Keep.....	1082
<i>Trial of Leavitt pumping engine at Louisville</i> , F. W. Dean.....	169
<i>Trials of a recent compound engine with a cylinder ratio of 7 to 1</i> , F. W. Dean.....	179
<i>Trial of a vertical triple-expansion pumping engine of the Trenton Iron Works</i> , Samuel Webber and G. S. Webber.....	49
<i>Theory of the moment of inertia</i> , C. V. Kerr.....	477
Thickness gauge, report on.....	32, 641
THOMSON, JOHN, disc., cams for steam-engine valve-gear.....	164
Throttling vs. cut-off regulation.....	111
THURSTON, R. H., disc., driving cut and wire nails, 1013; efficiency of boilers, 971; governing by compression, 443; new coal calorimeter, 1056; new Porter steam engine, 153; trials of recent compound engine.....	183

	PAGE
<i>Topical discussions and interchange of data</i>	590, 1168
TOWL, FORREST M., disc., changing the suction system of a pumping engine.....	44
Tremont turbine.....	707
TWEDDELL, R. H., memorial notice of.....	1198
WAGNER, J. R., disc., efficiency of boilers.....	976
WARNER, W. R., disc., boiler and engine plants, 604; monthly meetings of Society, 31; piece-rate system.....	900
WEBB, J. B., disc., counterbalance in locomotive drive-wheels.....	319
WEBBER, SAMUEL, and WEBBER, S. S., <i>trial of a vertical triple-expansion pumping engine of the Trenton Water Works</i>	49
WEBBER, SAMUEL, disc., the old and the new.....	745
WEBBER, W. O., disc., efficiency of boilers.....	974
WEBSTER, JOHN H., memorial notice of.....	1196
WELLINGTON, ARTHUR MELLE, memorial notice of.....	1197
WEST, THOMAS D., disc., tests of cast iron.....	571
WHEELER, S. S., disc., the use of the decimal thickness gauge.....	35
WHITNEY, E. H., disc., new forms friction brakes.....	822
WILLIS, E. J., <i>horse-power planimeter</i> , 1161; disc., distribution of moisture in steam, 1034; new forms friction brakes.....	824
Winans' cam motion	163
WOOLSON, O. C., disc., boiler and engine plants.....	607
WOOD, DE VOLSON, <i>analysis of the Tremont turbine</i> , 707; <i>the strength of iron as affected by tensile stress while hot</i> , 739; disc., moment of inertia, 494; coatings for iron and steel.....	425
WOOD, M. P., <i>rustless coatings for iron and steel—galvanizing, electric-chemical treatment, painting, and other preservative methods</i> , second paper, 350; <i>rustless coatings for iron and steel</i> , third paper, 663; disc., illuminating gas, 625; strength of car axles, 247; tests of cast iron....	577
WOODBURY, C. J. H., disc., drawing office appliances, 108; telephone systems.....	623
WORTHEN, W. E., disc., old and new.....	747
WRIGHT, LOUIS S., disc., forms of filing cabinets.....	628
